City of Sedalia: Potential for Snow Accumulation

According to the National Weather Service, Sedalia has the potential for up to 4 inches of snow accumulation with snow starting mid-morning Friday, Feb. 15, 2019, and ending Friday evening. Motorists should be aware that Street Department crews are out pretreating roadways and to be aware heavy equipment is operating throughout those areas.

Emergency Snow Routes are being activated at noon on Friday. Drivers who routinely park on streets designated as Emergency Snow Routes will need to move their vehicles to other locations as snow is expected to accumulate during nighttime hours. City crews will be working overnight Friday to ensure Emergency Snow Routes remain open. Cars remaining parked on emergency snow routes may be towed or plowed in as crews work to keep these roadways open for emergency vehicles. To ensure safe travel, motorists are encouraged to remain home, if possible, until roadways have been plowed.

Parking is prohibited along Emergency Snow Routes as Street Department plows need access to clear and open the roadways. We appreciate everyone's cooperation in keeping vehicles off Emergency Snow Routes. A map is available on the City's website at the following link detailing which city streets are designated Emergency Snow Routes as well as those roadways within the city limits designated by the Missouri Department of Transportation (MoDOT):

http://www.cityofsedalia.com/filestorage/11407/11562/11569/11581/417_2013_Emergency_Snow_Route_Map.pdf.

When making travel plans during the winter season, the City encourages checking for current travel conditions at MoDOT's "Traveler Info Map" available at their website www.modot.org. For questions about Emergency Snow Routes, please contact the Public Works Department at (660) 827-3000.
