EFFECTIVE MARCH 24, 2020: CURBSIDE RECYCLING AND ALLEY COLLECTION OF GARBAGE TEMPORARILY HALTED

(SEDALIA, MISSOURI) With growing concerns about the spread of Coronavirus and COVID-19, the City of Sedalia will temporarily discontinue curbside recycling collection effective Tuesday, March 24, 2020 until further notice. This will allow residents to use both their blue recycling and gray garbage carts for garbage. The goal is to ensure that all garbage is in an enclosed cart preventing any garbage from blowing or rain from collecting inside the carts. Curbside recycling services will resume after concerns related to the virus have passed.

Additionally, as a precautionary measure during this public health emergency, the City will be moving all garbage collection to curbside effective Tuesday, March 24, 2020 until further notice. This will allow garbage collection to occur using automated trucks and limiting Sanitation staff's direct contact with any residential waste materials. The only exception to automated collection will be along U.S. Highway 50 (Broadway Ave.) where there is not a safe method for collecting carts from the roadway. Those residents living along Broadway Ave. will continue to have their carts collected in the alley.

Residents who previously placed their carts in alleys for collection will need to have their carts curbside by 11:00 a.m. on their scheduled collection day. Collection of carts in the below listed areas will occur between 11:00 a.m. and 2:00 p.m. on the scheduled collection days.

No parking will be allowed along these roadways from 10:00 a.m. until 3:00 p.m. on the scheduled collection day, so that residents may safely place and retrieve their carts from the curb and to allow for collection by automated trucks.

The specific areas moving to curbside collection that were previously collected in alleys and where no parking will be allowed on the collection day include:
