CITY OF SEDALIA WATER DIVISION: 2019 CONSUMER CONFIDENCE REPORT AVAILABLE

(SEDALIA, MISSOURI): The City of Sedalia Water Division is required to make a Consumer Confidence Report (CCR) available annually to our customers. The current CCR is available at:

www.dnr.mo.gov/ccr/MO3010728.pdf.

The report enables customers to make knowledgeable decisions about their health and the environment and provides consumers with the following information:

- The source of their drinking water.
- A brief summary of the susceptibility to contamination of the local drinking water sources, based on the source water assessments.
- How to get a copy of the water system's complete source water assessment;
- The level, or range of levels, of any contaminant found in local drinking water, as well as the federal health-based standard (maximum contaminant level) for comparison.
- The likely source of any contaminant in the local drinking water supply.
- Potential health effects of any contaminant detected in violation of health standards, and an accounting of the system's actions to restore safe drinking water.
- The water system's compliance with other drinking water-related rules.
- Educational information on nitrate, arsenic, or lead in areas where these contaminants are detected above 50 percent of federal standards.
- Phone numbers for additional sources of information.

If residents would like to receive a paper copy of the CCR or have other questions regarding their water supply, please feel free to call (660) 827-3000, ext. 1140 for assistance.

When : Annual Water System Consumer Confidence Report
Where : Website and Contact Information Provided
Why : Safe Drinking Water Requirement
